SELF CLEANING CYCLE

ESPRESSO MECHANISM

ROASTERS APPROVED RECIPES

HLF Fresh Milk brings a whole new set of features to the table with its modern, contactless technology. Get quality coffee beverages from your smartphone and set your preferences. Use fresh milk in your recipes for a true barista experience and delicious results. Opt for the dual milk option to have 2 milk options for your coffee beverages without cross contamination. The ideal feature to serve dairy and non-dairy options. The HLF 5700 is one of the first coffee machines to have a complete self cleaning cycle.
